

Cross-country skiers find a haven!!!

My wife and I just made it back home after enjoying four days of cross-country skiing in the Pyrenees while staying at [Le Parede](#). We still talk about how fortunate we were to have stayed in such a peaceful yet strategically located bed and breakfast.

Previous to our departure we had hoped to ski at three resorts, but to our surprise and due to our location we were able to surpass our goal by skiing at four different stations.

Both Astrid and Barrie made our stay more than memorable. Being able to finish the day with a quick chat and a warm exchange of smiles was more than enough to make us feel at home. Looking forward to repeating the experience!!
